Professional timber finishes

We love timber. It has been used for thousands of years for buildings, furniture and decoration and it continues its popularity today because of its versatility, its warmth, its character and its natural beauty.

Enhancing and preserving the natural beauty of timber has been Feast Watson's aim since our beginnings in Sydney in 1922. We've grown by innovating new products with advanced UV and weather resistance, durability and ease of application. Each product in this guide is designed to give a long-lasting, beautiful finish to timber.

Feast Watson products are the choice of discerning woodcare enthusiasts and trade professionals who share our love of timber. Our wide range of finishes and colours enables you to get the perfect effect for every timber project.

For further information about Feast Watson products or their application, please call our Customer Service Team, on 1800 252 502 or visit our website www.feastwatson.com.au

ENRICHING AUSTRALIAN TIMBER
SINCE 1922

OILS

Woodclean

As with painting, a beautiful, long-lasting finish on timber depends on preparing the surface properly. Before applying any exterior timber coating it is important to remove all the dead timber fibres and surface contaminants that discolour the timber and impede the even absorption of the coating. Feast Watson Woodclean is a powerful, oxalic acid-based preparation treatment that aids the removal of oils, mould, stains and tannins from new and weathered timber.

Ideal for rejuvenating grey, weathered timber, Woodclean is suitable for restoring decking, outdoor furniture, fences, pergolas and other exterior woodwork.

Uses:	Woodclean helps to remove oils and tannins from new timber and rejuvenates grey, weathered timber
Coverage:	1 litre of Woodclean dilutes to clean approximately 20m ²
Clean up:	Water
Pack size:	1L, 4L

TIP: Stubborn stains and grime can be removed by using undiluted Woodclean. Ensure surface is thoroughly rinsed.

Traditional Timber Oil

A deep penetrating, traditional oil based finish for decking and exterior timber. Traditional Timber Oil gives rich colour and preserves the natural look of timber. The added eucalyptus oil naturally dissolves gum residue and grease, ensuring a beautiful even finish. Traditional Timber Oil comes in a warm Natural colour to highlight the character of timber species.

Natural on Merbau

Uses:	All exterior timber including decking, steps, fences, gates, posts and beams.
Coverage:	6-10m per litre
Recoat:	1 hour (wipe surface)
Dry:	18 hours
No of coats:	2-3
Clean up:	Mineral turpentine
Pack size:	4L, 10L
Durability:	★★★

This product is not designed for use with Feast Watson Decking Oil

OILS

Decking Oil

A hard wearing, semi-transparent timber finish that enhances the natural beauty of timber whilst protecting it from Australia's harsh conditions. The rich ingredients in the modified oil formula penetrate deeply to nourish the timber, replicating it's natural defences against the effects of aging. With added water, UV, and mould resistant properties, Decking Oil weathers naturally over time and will not crack or peel.

Decking Oil is convenient to apply as it is fast drying, has low odour and all application equipment can be cleaned up with water. The durable low sheen finish is easy to clean to keep your deck looking good between coats, and future maintenance coats can be applied without complicated preparation or sanding.

Decking Oil is available in a lightly pigmented Natural colour and seven tinted timber colour tones to bring out the colour of your timber.

Uses:	Decking, timber walkways, steps, rails, fences, gates and other exterior timber.
Coverage:	8-12m ² per litre
Recoat:	4 hour
Dry:	12 hours
No of coats:	2-3
Clean up:	Water
Pack size:	1L, 4L, 10L
Durability:	★★★★★

FINISHES

Wet Look Deck

A timber finish that provides a freshly coated 'wet look'. The 'wet look' gloss finish weathers naturally over time, and can be restored with a single maintenance coat. Wet Look Deck is convenient to apply as it is fast drying, has low odour and all application equipment can be cleaned up with water.

Wet Look Deck on Merbau

Wet Look Deck tinted to Jarrah on Jarrah

Wet Look Deck tinted to Merbau on Merbau

Uses:	Decking, timber walkways, steps, rails, fences, gates and other exterior timber.
Coverage:	8-12m ² per litre
Recoat:	4 hours
Dry:	12 hours
No of coats:	2-3
Clean up:	Water
Pack size:	100ml, 1L, 4L, 10L
Durability:	★★★★☆

TIP: TO CHANGE TO WET LOOK DECK

Timber already coated with stain or oil can be coated with Wet Look Deck after the surface has weathered. See the product label or Feast Watson website for instructions.

FINISHES

Grey Look Deck

A water based timber finish that provides a grey, naturally weathered timber look and durable protection. Grey Look Deck has been formulated to weather naturally, and the intensity of the grey look will increase over time. It is ideal for protecting timber from the destructive effects of weathering whilst achieving the 'weathered look.'

Grey Look Deck on Pine

Grey Look Deck on Spotted Gum

Uses:	Decking, timber walkways, steps, rails, fences, gates and other exterior timber.
Coverage:	8-12m ² per litre
Recoat:	2 hours
Dry:	12 hours
No of coats:	2-3 (Note: A third coat will increase the opacity of the grey finish)
Clean up:	Water
Pack size:	100ml, 4L
Durability:	★★★

TIP:

Perfect for already Weathered/Grey timber that has gone grey. It is not too late to protect your timber!
Use Grey Look Deck to maintain the grey look you love and add protection so your grey timber does not start to breakdown. Simply clean the timber with Woodclean, then apply two coats of Grey Look Deck!

SPECIALITY OILS

Outdoor Furniture Oil

A protective, penetrating oil that has been formulated to preserve and maintain the natural beauty of outdoor timber furniture. Feast Watson Outdoor Furniture Oil penetrates deeply to enrich the timber with a natural matt finish that is available in clear or four tinted natural timber tones. With added eucalyptus oil, it has UV and mould resistant properties and has excellent water resistance.

Outdoor Furniture Oil is available as a brush-on oil, or in a convenient spray.

Uses:	Outdoor timber furniture, including barbecue trolleys.
Coverage:	1 litre should provide two coats for the average 5 piece outdoor setting
Recoat:	12 hours
Dry:	24 hours
No of coats:	2
Clean up:	Mineral turpentine
Pack size:	300g spray, 500ml, 1L

TIP: UV PROTECTION

Outdoor Furniture Oil Clear is not recommended to withstand direct sunlight. For added UV protection select one of the colour tinted Outdoor Furniture Oils which have higher levels of UV filters for longer lasting protection.

SPECIALITY OILS

Outdoor Furniture Wipes

Specially formulated wipes to remove the accumulated dust, dirt and grime from the surface of outdoor timber furniture. Enriched with wax and eucalyptus oil Outdoor Furniture Wipes refresh and nourish timber.

Uses: Ideal for regular, convenient cleaning and refreshing of all new, oiled or stained outdoor timber furniture. For full protection on bare or un-maintained timber use Feast Watson Outdoor Furniture Oil prior to using Outdoor Furniture Wipes.

Wood Shield Oil

Designed to protect rough sawn-timber from weathering, Feast Watson Wood Shield Oil provides maximum water repellence for exterior timber. Wood Shield Oil is perfect for vertical timber surfaces such as rough sawn cedar weatherboards, fences, screens and doors. By deeply penetrating the timber whilst still allowing it to breathe, Wood Shield Oil reduces the timber's tendency to warp and split.

Maintenance coats can be applied easily without the need to strip or sand back the previous coatings. Wood Shield Oil is a lightly pigmented natural coloured oil that gives a matt finish. For a satin or gloss finish Wood Shield Oil can be coated with Feast Watson Weatherproof Varnish.

Uses:	Rough sawn and dressed timber including: cladding, fascias, weatherboards, doors, pergolas, gates and fences.
Coverage:	6–10m ² per litre
Recoat:	30 minutes, wet on wet
Dry:	10 hours
No of coats:	2–4 (until timber is saturated)
Clean up:	Mineral turpentine
Pack size:	1L, 4L, 10L

TIP: MATCHING FINISHES

Wood Shield Oil is ideal for use on window frames where the same finish is desired both inside and out. For a higher gloss, dressed timber can be top coated with Feast Watson Weatherproof Varnish for a Satin or Gloss finish.

STAINS

Timber & Deck Stain

A penetrating, semi-transparent exterior timber finish. Timber Deck & Stain adds rich colour and a subtle sheen to timber, highlighting the natural beauty of the timber grain. The two coat system is ideal for transforming the colour of timber, or rejuvenating the colour of old, weathered timber. Highly recommended for Treated Pine.

Timber & Deck Stain protects timber from the destructive effects of water, UV and mould. It is resistant to cracking, peeling and blistering and is suitable for use over bare and previously coated timber.

Timber & Deck Stain can also be used for inside/outside colour matching. It is ideal for doors, interior exposed beams, window frames and skirting boards.

Available in 4 pre-packaged colours.

Uses:	Perfect for decks and all exterior timber. Suitable for interior doors, interior exposed beams, window frames and skirting boards.

TIP: SATIN OR GLOSS FINISH

For a satin or gloss finish on vertical surfaces Timber & Deck Stain can be over coated with Feast Watson Clear Varnish (Interior) or Weatherproof Varnish (Exterior).

Note: Clear Varnish and Weatherproof Varnish are NOT suitable for coating areas subject to foot traffic.

CLEAR COATS

Weatherproof Varnish

Satin & Gloss Marine Grade Timber Varnish. A clear, polyurethane timber finish incorporating maximum UV screening to provide excellent, long-lasting protection against the elements. Ideal for where a tough clear satin or gloss finish is required with resistance to sunlight, salt mist, chemicals, oils and solvents. Weatherproof can also be used on the inside of window frames and external doors, and to give Wood Shield Oil a Gloss or Satin finish.

Uses:	Exterior woodwork including doors, window frames, trim, panelling, gates and furniture. Also perfect for interior applications.
Coverage:	10-12m ² per litre
Recoat:	12 hours
Dry:	24 hours
No of coats:	3-4
Clean up:	Mineral turpentine
Pack size:	500ml, 1L, 4L

Spar Marine Varnish

High Gloss Marine Grade Timber Varnish. A high gloss exterior varnish that is flexible when fully cured, allowing surfaces to bend, twist, expand and contract without the coating cracking or splitting. Spar Marine Varnish is designed to lock out moisture to protect the timber from water damage, making it ideal for above water line marine applications.

Uses:	High gloss flexible varnish for all marine and exterior timber.
Coverage:	10-12m ² per litre
Recoat:	12 hours
Dry:	24 hours
No of coats:	3-5
Clean up:	Mineral turpentine
Pack size:	500ml, 1L, 4L

TIP: **Stirring** – Do not shake cans as this will create air bubbles in the coating. Instead, stir contents thoroughly with a wide, flat bladed stirrer such as a wooden ruler before and during use. Be sure to stir to the bottom of the container with a scooping action.

Paving & Sandstone Sealer

A penetrating, clear sealer and top coat that shields porous stone, masonry and concrete from stains and traffic wear. Feast Watson Paving & Sandstone Sealer offers heavy-duty protection for high traffic areas such as driveways and garage floors. It brings out the depth of colour in natural stone with a matt finish that can be built to a gloss with additional coats.

Uses:	Exterior & interior porous stone including; concrete, sandstone, masonry pavers and natural brick.
Coverage:	8m ² per litre for cement pavers 6m ² per litre for sandstone
Recoat:	2 hours
Dry:	8 hours
No of coats:	2
Clean up:	Xylene
Pack size:	1L, 4L, 10L

Slate & Pebble Sealer

A tough, clear, sealer and top coat designed to protect non-porous stone surfaces from weather, abrasion, food, oil, grease and household dirt. Feast Watson Slate & Pebble Sealer brings out the full colour and natural beauty of slate and stacked stone with a gloss finish.

Uses:	Exterior & interior non-porous stone including; floors, bathrooms, foyers, driveways, steps, pathways and roof tiles.
Coverage:	10-12m ² per litre
Recoat:	2 hours
Dry:	8 hours
No of coats:	2
Clean up:	Xylene
Pack size:	1L, 4L, 10L

TIP:

Getting it Right – Seal all surface edges and ends as rising water through or behind coatings can cause a whitening effect to stone.

	Product	Description	Where To Use	Preparation Products	Finish/ Appearance	Apply With	Approx. Coverage Rate	Number Of Coats	Re-Coat Time	Clean Up With	Sizes Available
